# Patio Heater Series

# Imported LPG heater

Signet

## ☑ Specifications

- Stainless steel body
- Foldable aluminum sheet reflector
- Imported Auto ignition start system
  Flame failure device for safety
- Uses a commercial gas cylinder

IMPORTED

# Bullet LPG heater

Signet

## ☑ Specifications

- Special aluminium sheet canopy for maximum heat efficiency
- Manual start system for reliable ignition control
- Commercial gas cylinder compatibility for extended operation
- Weather-resistant construction built for outdoor durability
- New bullet design, elegant with a premium matte black finish

# Blaze LPG Heater

Signet

## Specifications

- Special aluminium sheet canopy for maximum heat efficiency
- Manual start system for reliable ignition control
- Commercial gas cylinder compatibility for extended operation
- Weather-resistant construction built for outdoor durability
- New modern look, elegant with a premium matte black finish

# Indian LPG Heater

Signet

## ☑ Specifications

- Stainless steel body
- Special aluminum sheet canopy
  Manual start system
- Uses a commercial gas cylinder

# Area Gas Heater

## ☑ Specifications

Heat output: 13kW for powerful and efficient heating.

Piezo ignition for quick and reliable startup.

Durable aluminium reflector for maximum heat distribution.

Heavy-duty wheels for easy mobility.

Includes gas hose for convenient installation.

Equipped with a Big Burner for enhanced heating performance.

IMPORTED

# Pyramid Heater Series

# Imported Pyramid Stainless Steel Gas Heater

Signet

## ☑ Specifications

- Stainless steel body
- High-quality glass tube
- Imported auto ignition start system easy to move
- Uses a commercial gas cylinder

IMPORTED

# Imported Pyramid Stainless Steel Gas Heater (Gold)

Signet

## ☑ Specifications

- Gold Stainless steel body
- High-quality glass tube
- Imported auto ignition start system easy to move
- Uses a commercial gas cylinder

IMPORTED

# Imported Pyramid Stainless Steel Gas Heater (Rose gold)

## ☑ Specifications

- Rose Gold stainless steel body
- High-quality glass tube
- Imported auto ignition start system easy to move
- Uses a commercial gas cylinder

IMPORTED

# Laser Cut Pyramid LPG Heater

Signet

## Specifications

- Modern laser cutting design with a premium matte black finish
- High-quality glass tube
- Imported auto ignition start system easy to move
- Uses a commercial gas cylinder
- Laser cut precison body

# Hexagon Pyramid Heater

## Specifications

Heat output: 13kW for efficient heating.

Pulse ignition for fast and dependable ignition.

One-piece aluminum reflector for better heat efficiency.

Premium glass tube design.

Durable wheels for convenient mobility.

Comes complete with gas hose.

IMPORTED

# Laser Cut Pyramid Heater

## Specifications

Heat output: 13kW for consistent heating performance.

Pulse ignition for easy operation.

One-piece aluminum reflector for superior heat reflection.

Stylish glass tube flame display.

Heavy-duty wheels for easy transportation.
Includes gas hose.

IMPORTED

# Laster Cut Round Tube Gas Heater

## ☑ Specifications

Stainless steel body

High-quality glass tube

Imported auto ignition start system
easy to move

Uses a commercial gas cylinder

IMPORTED

# Round Tube Gas Heater

## ☑ Specifications

Stainless steel body

High-quality glass tube

Imported auto ignition start system
easy to move

Uses a commercial gas cylinder

IMPORTED

# Electric Heater Series

# Standing Electric Heater

Signet

## Specifications

- Heavy SS pole with height
- Halogen Heating Elements
- Twin elements 1200W & 1800W
  Combined 3000W
- Flame failure device for safety

IMPORTED

# Imported
# Dual Head Electric Heater

Signet

## ☑ Specifications

- Heavy Duty build with premium finish
- Halogen Heating element
- Roatating heads
- Twin elements 1500W each, 3000W combined
- Flame failure device for safety
- Operated by remote control

IMPORTED

# Wall Mount Electric Heater

Signet

## Specifications

- Single carbon golden tube
- Elements - 800w, 1600w, & 2500w
- Touch switch and remote control
- 5m range with 120 degree angle

IMPORTED

# Imported Black Electric Hanging Heater

Signet

## ☑ Specifications

- Operated by remote control
- Easy to install
- Halogen heating elements
- Twin elements, total 2500W
- Double carbon heating lamp

IMPORTED

# Imported Silver Electric Hanging Heater

Signet

## Specifications

- Easy to install
- Twin elements, 1200W & 1800W combined 3000W
- Double carbon heating lamp

IMPORTED

# 3 Way Standing Electric Heater

## ☑ Specifications

Voltage & Power: 220–240V, 2400W heating capacity.
Dual carbon elements for efficient, comfortable warmth.
Heating Settings: with 800W / 1600W / 2400W / 0W levels.
Rocker Switch: Easy-to-use for convenient control.
Color: Elegant Black finish.
Power Cord: 1.8m cord with India plug.
Carton Size: 60.5 × 59.5 × 26 cm.
Packaging: Brown carton with logo on rating label and carton.

IMPORTED

# Electric Swing Heater

## ☑ Specifications

Voltage & Power: 220–240V, 2500W
Heating: Dual Carbon Tubes
Settings: 1000W / 1500W / 2500W / OFF
Switch: Rocker Switch
Cord: 1.8m India Plug
Finish: Premium Copper
Carton Size: 96.5 × 51.5 × 45 cm
Packaging: Brown Carton with Logo

IMPORTED

# Lamp Electric Heater

## Specifications

Premium Electric Patio Heater for efficient indoor and outdoor heating.

Dual carbon tube heating elements with 1200W + 1800W power settings.

Includes a remote control for convenient operation.

IMPORTED

# Wall Mount Lamp Electric Heater

## ☑ Specifications

Space-saving wall-mounted electric patio heater for patios, balconies, cafes, and outdoor seating.

Dual carbon tube heating elements
with 1000W + 1500W power settings.

Comes with a remote control for effortless operation.

IMPORTED

# Fire Pit Series

# 28” Fire Pit

## Specifications

Heat output: 14kW for high-performance heating.

Pulse ignition for safe and easy operation.

High-quality 304 stainless steel burner.

Durable glass wind guard for added flame protection.

Includes 2.5 kg lava rocks for an attractive flame effect.

Supplied with gas hose.

Closed base design for a clean and premium appearance.

IMPORTED

# 43” Fire Pit

## ☑ Specifications

Heat output: 14kW for powerful heating performance.

Pulse ignition for instant ignition.

Durable 304 stainless steel burner.

Strong glass wind guard for improved safety.

Includes 2.5 kg decorative lava rocks.

Comes with gas hose.

Closed base construction for a sleek and modern finish.

IMPORTED

# Fire Pit With Table

## Specifications

Gas Type: Propane, Butane & LPG compatible.

Heat Output: Maximum 8kW heating power.

Consumption: 576–599g/h fuel consumption.

Safety: Tilt switch and flame failure protection.

Flame Visibility: Flame visible from all sides.

Protection: 4 tempered glass windows for added safety.

Ignition: Convenient battery-powered electric ignition.

Mobility: 4 wheels, including 2 lockable wheels.

Cylinder Capacity: Supports gas cylinders up to 13kg.

IMPORTED

# Glass Fire Pit

## Specifications

Gas Type: Propane, Butane & LPG compatible.

Heat Output: Maximum 6kW heating power.

Consumption: 429g/h fuel consumption.

Safety: Tilt switch and flame failure protection.

Flame Visibility: Flame visible from all four sides.

Glass: Durable four-sided tempered glass.

Ignition: Convenient battery-powered electric ignition.

Mobility: 4 wheels, including 2 lockable wheels.

IMPORTED

# Heat Blast Fire Pit

## Specifications

Heat output: 13kW for reliable heating performance.

Pulse ignition for quick and effortless startup.

One-piece aluminum reflector for maximum heat distribution.

Elegant glass tube flame chamber.

Heavy-duty wheels for easy movement.

Includes gas hose.

Comes with gas regulator for safe operation.

IMPORTED

Includes a protective cover for storage and weather protection.

# Pyramid Fire Pit

## ☑ Specifications

Heat output: 13kW for efficient outdoor warmth.

Pulse ignition for quick and reliable lighting.

Durable 304 stainless steel burner.

Premium glass enclosure for flame visibility.

Includes 2.5 kg lava rocks for enhanced aesthetics..

Supplied with gas hose.

IMPORTED

# Rocket Pallet Heater

## ☑ Specifications

Premium Pellet Outdoor Heater with an elegant black finish.

Model: FLT019 (Black Color).

Fuel Type: Wood Pellet for clean and efficient heating.

Maximum burn time: 4–5 hours on a single fill.

120 cm glass chimney for an attractive and visible flame effect.

Integrated ash tray for easy cleaning and maintenance.

Packed securely in a durable brown carton for safe transportation and storage.
